## Summary

---

I'm an enthusiastic Java Software Developer with strong Java object-oriented programming skills and many years of experience in software development. Thanks to my academic background in Computer Science and the contribution to several projects across the years, I developed critical thinking, ability to identify problems and propose solutions, teamwork personality and proactive behavior. I do believe to be a valid contributor for any project.

## Experience

---

### **Deutsche Börse | Prague, Prague**

#### **Java Software Developer | 01/2021 - Present**

As Java Software Developer at Deutsche Börse I am responsible for developing, testing & maintaining/supporting the Prisma RDS software.
